Why an ELS 210 B ?

The ELS kiln **saves your back**
The ELS kiln is so much **easier to load**
The ELS kiln is **more efficient**

It is usual to obtain a 20% greater packing density, thus lowering overall firing costs.

Front Loader KE-N

New ELS200N

Electric Front Loader KE-N Series For Ceramics up to 1300°C

Tried and tested kilns with 5 sided heating

Excellently crafted firebrick construction

Robust steel construction with stainless steel surface

In frame ventilation for low outer temperatures

In frame ventilation for corrosion protection

Ceiling support with silicon carbide beams (patented)

Heating elements recessed into firebricks

Very energy efficient

Solid State Relays on all kilns

3 year guarantee (excludes heating elements)

Cooling System for KE 100 to 480 S ***	£1,103.00
Exhaust Air Hoods, See page 26	

** Controller TC504 with extra event required

*** Controller Imago 500 is required with this combination

The legs of KE kilns larger than 100 litres are removed for transport reasons and need to be reassembled when delivered.

ELS Ergo Load System

ELS S series

ELS 210B

ELS 200N

ELS Ergo Load System For Ceramics up to 1320°C (1300°C N series)

Rohde patented concept now with drawer bottom
5 sided heating, elements on support rod for S Series
5 sided heating, elements recessed for N series
In frame ventilation for the entire kiln construction
Ceiling support with silicon carbide beams (patented)

Standard 1 Zone Control
Solid State Relays, silent and wear free

3 layer insulation for excellent energy efficiency, S series
2 layer insulation for excellent energy efficiency, B & N

3 years guarantee (excludes heating elements)
